## PARTS ORDERING INFORMATION

---

For service assistance or parts, contact your nearest authorized Crary dealer or the factory. Your nearest authorized Crary dealer will need to know the serial number of your Air Reel to provide the most efficient service. See below for information on how to identify and record the serial number for your Air Reel.

## ILLUSTRATION AND TEXT

The arrangement of this parts catalog is for easy identification of the Air Reel parts. All parts are illustrated in either assembled or exploded views. All illustrations are located on the left hand page with the associated parts information (text) on the right. Except for some common hardware, all parts are identified with an item number which corresponds to the "Item" column on the parts information page. The text pages list the reference number, part number, part description and the quantity required.

## REPLACEMENT PARTS

---

Only genuine Crary replacement parts should be used to repair the Air Reel. Crary replacement parts are available from your Crary Dealer. To obtain prompt, efficient service, remember to give the dealer the correct part description and serial number of the Air Reel.

**When ordering parts for your unit provide the following:**

1. The SERIAL NUMBER of your Air Reel.
2. The PART NUMBER of the part.
3. The PART DESCRIPTION.
4. The QUANTITY needed.

### **WARNING**

We urge using only genuine replacement parts, which meet all the latest requirements. Replacement parts manufactured by others could present safety hazards, even though they may fit on this unit.

## SERIAL NUMBER LOCATION

---

Always give your authorized Crary dealer the serial number of your Air Reel when ordering parts, requesting service, or any other information. Please record the serial number in the space provided below and on the warranty and registration card.
